

# U2 University 2009

New Intelligence for a smarter planet,  
New intelligence for U2

September 16-18  
Denver, CO USA

October 13-15  
Liverpool, UK

November 17-19  
Sydney, AUS

## Boost your bottom line by addressing the real world challenges you face:

- ✓ **Regulatory:** Learn techniques for complying with key standards (FIPS 140-2, PCI DSS, etc).
- ✓ **Security:** Protect your customers and your business with U2 encryption and by employing SSL and SSH.
- ✓ **Competitive:** Modernize your application's look and feel, up to and including live video feeds, web services and custom-styled forms using XAML, SBXA, and .NET.
- ✓ **Administrative:** Understand file tuning, performance, and system processes to diagnose system problems quickly, effectively, and inexpensively.

### It's one jam-packed event!

- Over 30 new sessions in 2009
- 45 unique sessions in three tracks
- Unlimited free IBM Certification exams

### New for 2009

- Hands on Labs
- U2 Support Kiosk
- Networking Event
